Introducing Perfect 10 Hybrid Displays

classic exhibits

503.652.2100 | www.classicexhibits.com

There are no shortcuts on the road to perfection

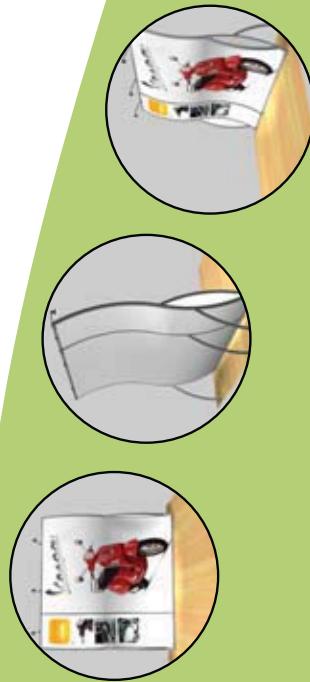

Perfect 10 may change your expectations of lightweight displays. The Perfect 10 packs into 1-3 portable roto-molded cases. Each case weighs about the same as a small child (85 lbs), and each component fits neatly into reusable laser cut foam jigging.

...Lightweight

As the industry leader in hybrid displays, Classic Exhibits uses lightweight, structurally sound Modul aluminum extrusions, the same extrusions found in Classic's renowned Visionary Designs exhibit line. The secret? Perfect 10 combines Modul extrusions, handy accessories, and tension fabric graphics into a revolutionary shape that does more than just show. It shows off!

So define your **lightweight**, expectations for portability, **Perfect 10** may single-handedly change your **perfection**!

We can't promise they won't stare

It's OK. Everyone stares the first time they see a **Perfect 10**. It's mesmerizing how the patent-pending reverse "S" appears to defy gravity. The magic of the Perfect 10 is all about creative design and smart engineering (and a little pixie dust). The distinctive frame is engineered for perfect weight distribution and each functional accessory—such as the cubby shelf, monitor mount, and dimensional signage—enhances the Perfect 10's visual and functional balance.

You work hard to find the perfect balance for your trade show marketing. Look to Perfect 10 for a display that combines large graphics and functional accessories into a stunning exhibit at a sweet price. You better get used to the attention . . . because we can't promise they won't stare.

...Well Balanced

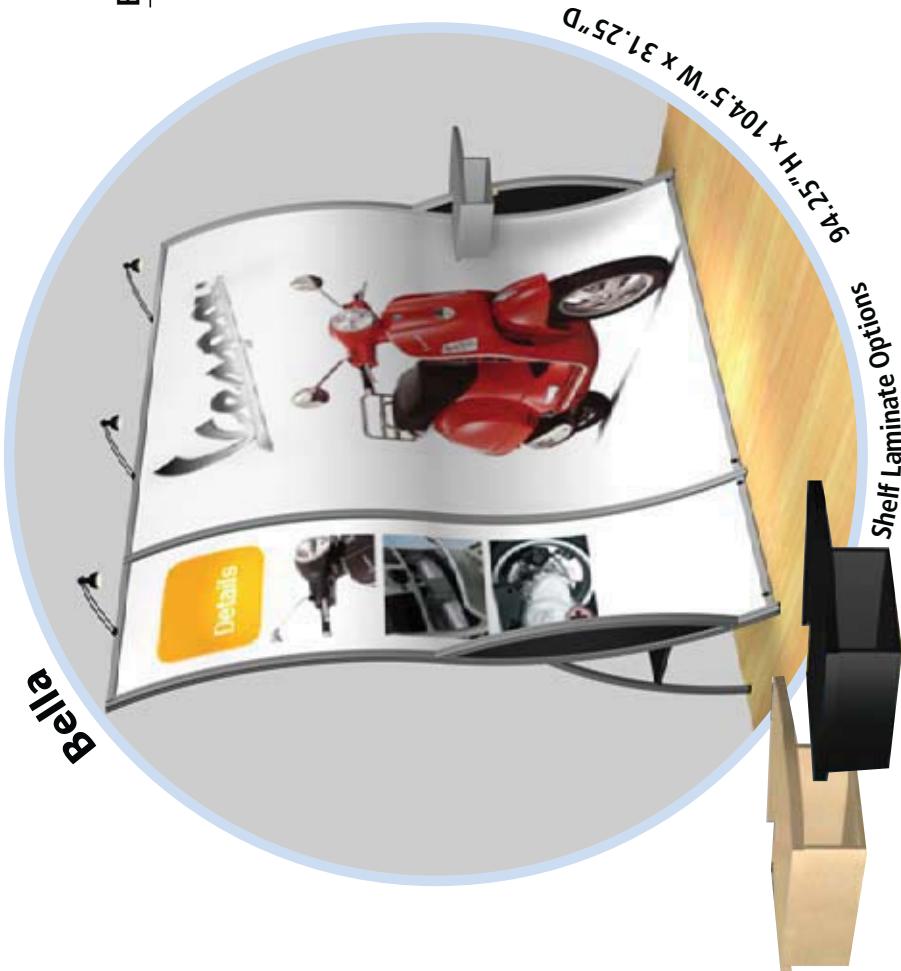

perfect 10, so well balanced and graceful, you can be too.
perfect 10, so well balanced

- Rear Shelf and Backwall Cubby (Choice of Pionite Black, Nevamar Silver Alu Metalx or Pionite Hardrock Maple Laminate)
- Large Format Tension Fabric Graphics
- (3) 50 Watt Halogen Clamp on Lights
- (2) Portable Roto-molded Cases with Wheels
- 7 Standard Frame Colors

... Curve Appeal

Get your mind out of the gutter

There are certain attributes you look for in a portable display. It better be functional, lightweight and easy-to-assemble. But, mostly, it better be really, really sexy. That's the case with the **Perfect 10's** none-too-subtle curves. Top to bottom and right to left, the Perfect 10 leaves little to the imagination.

But those curves are there for more than looks alone. There's more visual real estate per foot than any straight-on shape, and the reverse "S" is structurally engineered to bear weight and maintain stability. So get your mind out of the gutter, there is a sensible reason for those curves.

Smart form. First date no less. End of the day. Practical function. Perfect **curves**. You're in love

... Easy
Twist Lock
Assembly

Whether it's your first time or your fiftieth

If you can unscrew a wine cork, you can assemble the **Perfect 10**. Like many smart designs simple is better. The Perfect 10 comes with attached knobs for each connection, and the larger horizontal pieces are hinged for easy setup and compact packaging. The always reliable Modul extrusion lock guarantees your Perfect 10 assembles fast with connections that are not only secure but also seamless.

Best of all, clearly illustrated instructions and labeled parts assure the Perfect 10 sets up effortlessly whether it's your first time or your fiftieth.

One, two, three, twist and done. Complex schedules call for one, two, three, set-up.

... **Enviable
Price**

Go from zero to profit in no time flat

If the **Perfect 10** had a license to drive, its vanity plate would read NV-MY\$. It would harbor a deuce and a quarter under the hood and take full advantage of hybrid technology. Compact and beautifully designed, the Perfect 10 hits the ground running with minimal effort and an "NV-able" price.

Test drive the Perfect 10 and see how you can go from zero to profit in no time flat without breaking the bank.

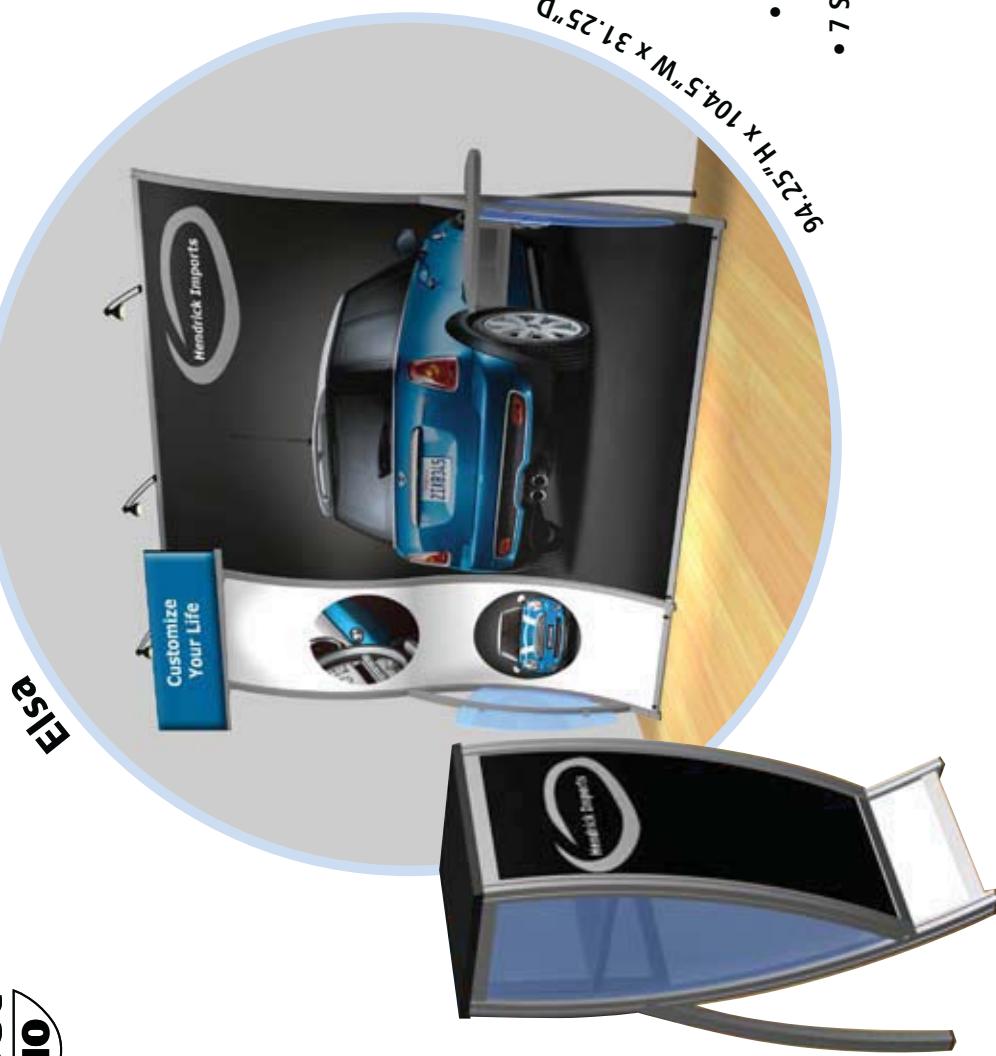

All Show! All Show!

Discover how DRE x GE = MMPPE

Many exhibits claim a small footprint or promise big impact. Until the **Perfect 10**, exhibitors had to choose one or the other. Striking the perfect equilibrium wasn't easy. Our design and engineering team had to delve deep into quantum display physics to develop MMPPE (maximum message potential per exhibit).

Every Perfect 10 comes with vibrant tension fabric graphics and depending on the kit includes a distinctive header and colorful wings. The pedestals and workstations are perfect compliments to the backwall in both shape and messaging potential. With Perfect 10, science isn't scary. Discover how Display Real Estate x Graceful Ergonomics = MMPPE.

... Small Footprint. Big Impact.

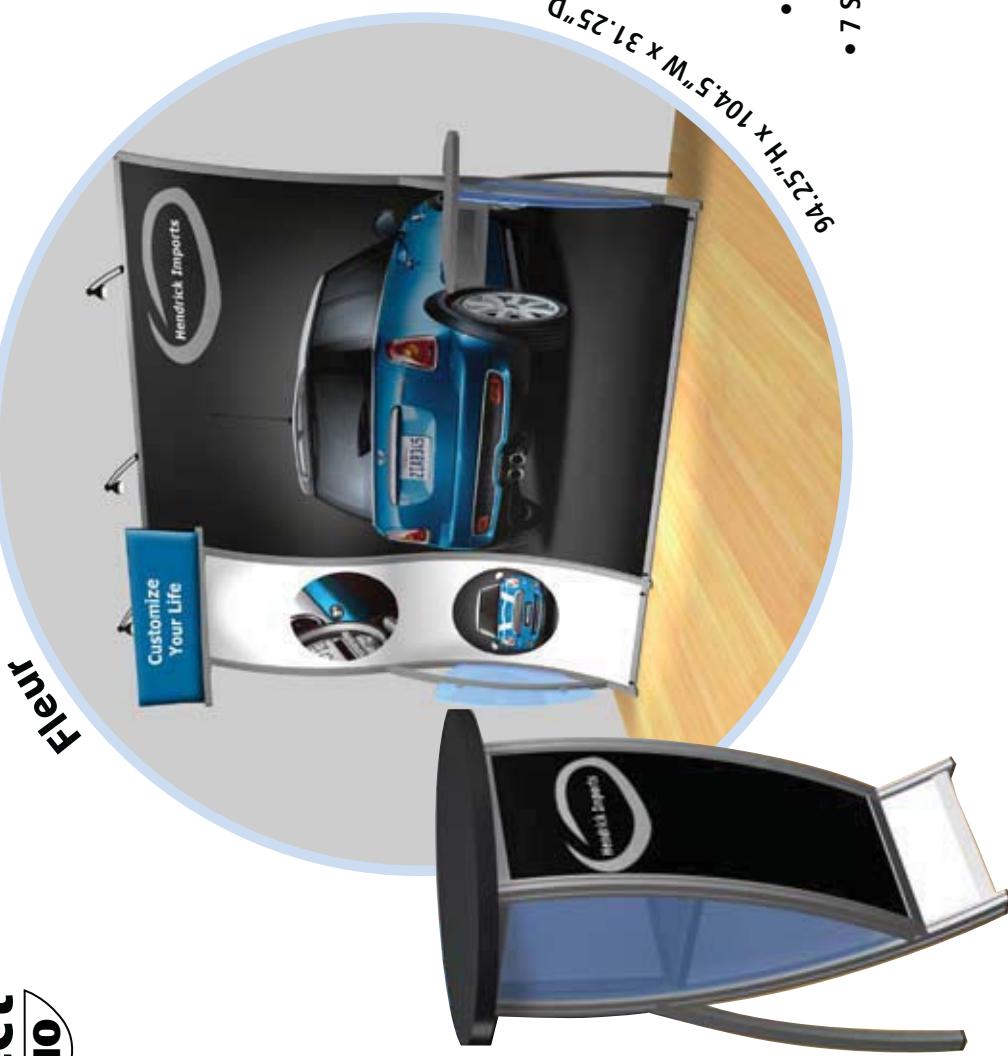

This compact 10' x 10' footprint is perfectly sleek profile packed a ton of visual real estate in a profile sleek profile. **Big impact, Perfect 10 delivers**

Naming a product **Perfect 10** is not for the faint of heart

Today's consumers are knowledgeable about design. They know the difference between *pretty* and *pretty functional* and want products that are both *design savvy* and *design smart*. Products have to perform well, consistently well, to withstand a consumer's scrutiny and win their loyalty.

Naming a product **Perfect 10** is not for the faint of heart. It had better be perfect. With Perfect 10 you get flawless performance and an exhibit that's impossible to take your eyes off. Think Katharine Hepburn's sensibility with Audrey Hepburn's inimitable style.

••• **Design Savvy**

Desire is all about the design.
Desire is all about the curves.
Desire is all about the sensuous and oh so smart, the Perfect 10's

There's nothing quite like a **Perfect 10**

Imagine possessing the ability to transform yourself, to become whatever your mood and your environment demanded. You'd be a **Perfect 10**—infinitely changeable, truly modular.

...Infinitely Changeable

Change your tension fabric graphics from show to show, even from day to day, or add a Perfect 10 pedestal or workstation to expand your capability. It's that easy. There's nothing quite like a Perfect 10 hybrid display when it comes to flexibility, performance, and presentation.

It's truly modular and infinitely changeable,

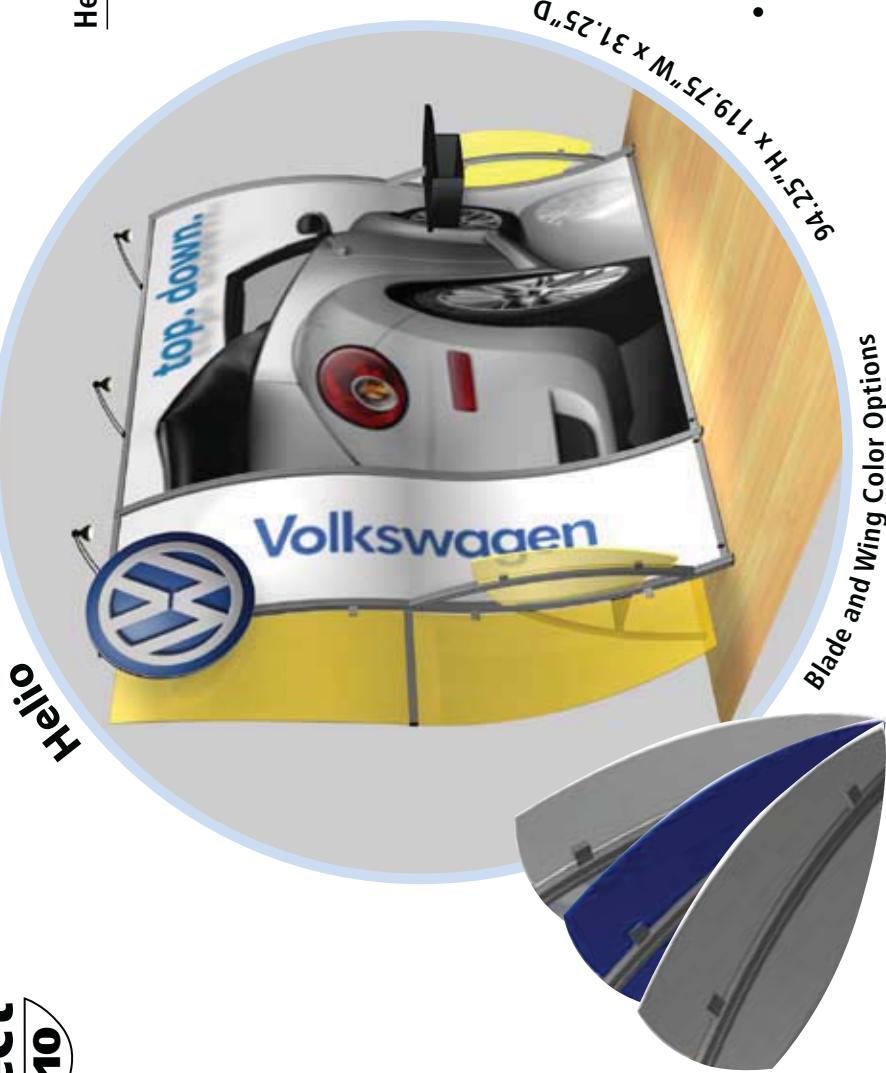

so your imagination is free.

- Large Format Tension Fabric Graphics
- (3) 50 Watt Halogen Clamp on Lights
- (2) Portable Roto-molded Cases with Wheels
- 7 Standard Frame Colors

It all begins with the **Perfect ending**

How do you fit a round peg into a square hole?

Perfect 10. Its gentle curves demand attention and erase all thoughts of the 90 degree angle. There's nothing quite like the Perfect 10 anywhere in the world. Easily recognizable, utterly unforgettable, the Perfect 10 affords every exhibitor the ideal stage to showcase their product or service.

... **Dramatic Flair**

The Perfect ending for any show begins with the Perfect beginning, and the perfect beginning requires getting noticed for all the right reasons. You want your message BIG and your visibility HIGH. With Perfect 10, you get both in a hybrid display that "admittedly" has a "flair for the dramatic."

Perfect 10—where a **flair for the dramatic** comes naturally.
