

display in a new direction compass

One of the most unique display stands to come around in a long time, Compass is truly special. Four practical rectangle graphic sizes are mounted to a variable height telescoping mast. The banner-to-mast mount is an innovative hub that allows the banner to rotate at different angles as well as tilt up or down.

Well made, easy to use and aggressively priced the Compass banner stand is an incredible value. Versatile and unique no other banner stand combines tilt/rotate to create dynamic backwalls, serve as a table top header (behind the table) and is perfect for floor-standing product backwalls ... Compass does it all!

Applications:

- P.O.P
- Events
- Hospitality Suites
- Trade Shows
- Product Backdrops
- Projector Screen

Benefits:

- Angled banner accommodates unusual vantage points
- Use in concert with table throws and keep full table top space
- Combine units with angled banners for exciting backwall alternative

Features:

- Four great banner sizes
- Variable heights
- Stand alone display
- Use at Various angles
- Elevated messages for bigger impact
