

Nothing captures attention like movement!! Put your message in motion with two scrolling banner options ... "The Revue" available as a floor banner stand or as a suspended banner. Scrolling banners offer you an eye-catching indoor visual merchandising option with a continual graphic that scrolls vertically; perfect for multiple messages or images. For maximum visibility, we recommend using a series of individual graphic images that are each 36" or less in length. Combine motion with our no-slip, premium, dye sublimation graphic for a captivating display!

*Revue*®  
scrolling banner system

A highest quality graphic is sewn as one continual loop and attached to a scrolling bar. It is specially designed to provide reliable tracking with minimal slippage. Simply assemble the unit and plug it into a conventional outlet for a continually scrolling, moving display. The Revue floor banner stand is portable, simple to set-up and takes up minimal floor space. The Revue hanging version includes brackets and fittings needed to suspend from the ceiling or other support structure, such as Truss or Extrusion systems.

- Discounts for duplicate graphics and large volume orders are available
